

## **ADVERTISEMENT TENDER NOTICE FOR PROCUREMENT OF**

1. Portable solar-powered speaker
2. Portable solar-powered lamp

Release Date: 12 September 2021,

### **1.0. Introduction**

The COVID-19 pandemic is a global health crisis that has resulted in great disruption to education worldwide. In Somalia, it has affected teaching and learning and forced the closure of schools and universities since March 18th, 2020. In responding to this outbreak, Puntland, introduced a new learning approach which is high technology based and recorded the syllabus from standard 1 up to form four using different platforms like the learning passport. The fact that the students is not equally resources to access the high technology based approach enforced to think alternative ways to facilitate students accessibility on recorded lessons, MoEHE developed alternative methods that are part of distance learning proposed including printed materials, MP3 radios, remedial classes and solar lamps.

With funding support from the GPE through UNICEF; the Ministry of Education and Higher Education (MoEHE) is hereby inviting all interested eligible bidders with capacity to supply/deliver high quality MP3 radios and solar lamps for the Ministry of Education and Higher Education of Puntland State of Somalia. This context appropriate strategy for continuous learning will **allow pupils, teachers, and schools to utilize flexible and remote/ home-based learning, which may include homework assignments, reading materials, Radio programs (MP3 radios).**
